## ANALYSIS

The applicant is requesting a Review of Public Works Condition #3 of Parcel Map PMP-13988. This condition required the construction of half-street improvements including appropriate overpaving on Doolittle Avenue adjacent to this site.

The Department of Public Works recommends *denial* for a Review of Condition #3 of approved Parcel Map PMP-13988.

Dedication and improvement of public rights-of-way and offsite improvements are required by Title 19.08.030(D) [Zoning Code – Development Standards] of the Las Vegas Municipal Code as a condition of approval for entitlement or subdivision actions within the City. In addition, Title 18.06.120 [Subdivision Code – Parcel Maps] describes what specific conditions would allow for the deferral of required public improvements. Those conditions are:

- (A) The parcel map will create large lots upon which no immediate development is intended;
- (B) The parcel map site is located more than six hundred sixty feet (one nominal block) from existing full or partial improvements;
- (C) The parcel map site is located in an area where partial or full public street improvements are not customary;

- (D) The parcel map site is located in an area where no street improvements currently exist and none have been obligated by means of a public improvements covenant, a covenant running with land agreement, a valid outstanding condition of approval for zoning or plot plan review, a budget appropriation or signed contract, or another similar document or evidence of commitment; or
- (E) Other extenuating site-related circumstances exist.

Staff does not believe that any of these conditions apply, and therefore recommends denial of this request. If approved, a condition has been included requiring a Covenant Running with Land agreement shall be signed and recorded for the possible future installation of half-street improvements (including curb and gutter, sidewalks, street lighting, permanent paving and possibly fire hydrants and sewers) on Doolittle Avenue adjacent to this site prior to occupancy of this site.
